BSK Announces Mwape as Sacramento Geotechnical Group Manager

RANCHO CORDOVA, CALIFORNIA – JUNE 2, 2008

BSK Associates has announced Finnegan Mwape, P.E. has joined the Sacramento engineering office as Geotechnical Group Manager. Mwape comes to BSK Associates with over 8 years of experience in both private and public sectors. His geotechnical engineering experience includes providing geotechnical exploration and earthwork recommendations for a wide variety of projects such as: hospitals, residential subdivisions, drainage ponds, pipelines and various buildings.

Mr. Mwape has been responsible for managing all phases of engineering projects, including: contract negotiations, report preparation, plans & specifications, and construction oversight.

“I’m excited about joining BSK because of the opportunity to being part of a growing business in northern California,” said Mwape.

BSK Associates is an employee-owned, professional consulting firm that offers civil and geotechnical engineering, environmental engineering, analytical chemistry, food microbiology, hydrogeology, engineering-geology, materials testing, and special inspection.
