

## **BSK Announces Plachta as Fresno Branch Manager**

FRESNO, CALIFORNIA – MARCH 28, 2008

BSK Associates has announced that Walter Plachta, P.G. has joined the Fresno engineering office as Fresno Branch Manager. Plachta comes to BSK Associates with over 21 years of experience in the environmental industry as a professional geologist, environmental assessor, and operations manager.

“Walt’s gift as an excellent communicator and his depth of experience as an environmental manager is exactly the mix of talents we were looking for in a branch manager,” said Amer Hussain, Southern California Regional Manager.

Plachta’s experience includes soil and groundwater assessments and remediation at a variety of sites involving agricultural chemicals, industrial solvents, petroleum products, landfills, and dry cleaning solvents. Mr. Plachta has managed environmental compliance services including groundwater assessment and monitoring of large and small waste dischargers. His clients have included major retailers, local, state and federal government agencies, developers, industry, schools, civil engineers, architects, food processors, farms, and individuals.

“BSK’s Fresno engineering groups have talented, hardworking individuals. I am looking forward to helping these groups grow in all service disciplines.” said Plachta.

BSK Associates is an employee-owned, professional consulting firm that offers civil and geotechnical engineering, environmental engineering, analytical chemistry, food microbiology, hydrogeology, engineering-geology, materials testing, and special inspection.
